

Customer Meeting Report

13/10/2023

Attendees:

- Stéphane DUGUET (Thales)
- Baptiste BELLIER
- Alexis BONAMY
- Marie BORDET
- Aurélie CHAMOULEAU
- Paul TRÉMOUREUX
- Benoît VAVASSEUR

Progress report:

- The internal quality plan has been finalized and is now complete.
- Sonar rules defined for the whole team (TS #34 and #35).
- The tests were entered on Squash
- The ActionManager file has been refactored to improve its usability for future developments. (TS #33)
- A function has been implemented in the Java GUI to allow only one simulation at a time. (US #32)
- All files affected by the ActionManager refactoring are currently undergoing quality improvement.
- US #24 (*verify station closures*) in development, no issues reported
- US #28 (*verify line closures*) in development, no issues reported
- US #20 (*verify peak hours simulation*) in development, functionalities don't seem to have been implemented yet, but we're working on it.
- We have seen an issue with the "master" branch. So we have created "prod", our new master branch.
- About the Sprint::
 - 7 US planified on this Sprint
 - 5 in progress
 - 2 not begun
- The idea of creating a git mirror was abandoned, as it was not mandatory in the context of the project. We will continue to use the Thales git.
- The team came up with the idea of creating a team on Microsoft Teams to improve communication within the team, with the client and with teachers.

Questions to customer:

Technical questions:

- On the subject of the "prod" branch, is it a problem for you if we don't use "master" but "prod" in future? We need to get the admin access to merge on "master", that's why we have created our own.
 - *It is okay to keep the "prod" branch and to use it as a team "master" branch.*

Project management:

- Do you agree to use a team on Microsoft Teams for the following:
 - Attend meetings
 - Share meeting documents, agendas and reports with customers
 - Communicate directly
 - *The use of a team on Microsoft Teams has been accepted for the items listed.*

Customer's questions:

- The customer has asked for more people to be involved in the weekly meetings. This will be taken into account.
