

Customer Meeting Report

10/11/2023

Attendees:

- Stéphane DUGUET (Thales)
- Baptiste BELLIER
- Alexis BONAMY
- Marie BORDET
- Aurélie CHAMOULEAU
- Paul TRÉMOUREUX
- Benoît VAVASSEUR

Progress report:

- About areas parameters : rename "School" by an other word (example: "Educational")
- Add a new Tech Story about checking current parameters of config.json (and delete the useless ones)
- User story #13: Start of the "behavioral parameters check"
- User story #3 ("Get area population distribution"): developed but need modifications depending on the way US #12 ("Get area destination distribution"): work
- Paul : travail fait sur les guides (en lien avec guide installation, utilisation, etc.) pour gens qui reprendrait projet sur certains outils qu'on utilise (Sonat Lint et CheckStyle) - tous les fichiers qu'ont crée sont sur GDoc mais à terme seront sur le git
- Guides : SonarLint, Checkstyle and Copyright guide began and almost finished
 - All those guide will be pushed into git at the end of sprint 2
- Still some delay but:
 - some implementations that have been made will make us save time during futures US
 - Maintainability is highly improved due to all the time spend on documentation and quality check
 - The 4th sprint is made of optional or less important US to prevent some delay on the project overall
- Half-way meeting scheduled the 24th of november and poster the 29th of november
 - Half-way progress meeting: a final presentation simulation (context, planning, job done, demonstration, etc.)
 - Week 47: time between two sprints planned to give time in ordre to work on both of those due dates
